Define Problem Statements

Project Initialization and Planning Phase

Define Problem Statements (Customer Problem Statement Template)

Instruction: Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

PS	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A beginner stock market enthusiast	Learn stock trading without risking real money	I can't find a risk-free platform with realistic market data	Most platforms require real money or lack real-time data integration	Frustrated and hesitant to enter the stock market
PS-2	An experienced trader testing new strategies	Experiment with different trading approaches safely	Current simulators have limited features and outdated data	They don't provide comprehensive portfolio tracking and analytics	Limited in my ability to innovate trading strategies
PS-3	A finance student learning market dynamics	Practice trading as part of my curriculum	Educational platforms are too theoretical without hands-on practice	They lack interactive trading features with real market conditions	Unprepared for real-world trading scenarios
