Problem-Solution Fit

Problem	Solution	Fit Score (1-5)
Beginners fear losing real money	Virtual funds trading simulation	5
Lack of realistic trading practice	Real-time US stock market data integration	5
No performance tracking tools	Portfolio dashboard with P&L analytics	4
Complex trading platforms	Clean, intuitive MERN-based interface	4
Limited learning resources	Guided trading with watchlists and history	4

Validation Summary

The proposed solution perfectly aligns with user needs. By offering a simulated, risk-free environment backed by real-time market data, the platform bridges the gap between theoretical knowledge and practical experience, delivering a high problem-solution fit.
