

Date	23 July 2026
Project Name	SB-STOCKS
Maximum Marks	2

Code-Layout, Readability and Reusability

Project Folder Structure

```
SB-STOCKS/
|-- client/ (React)
|   |-- src/
|   |   |-- components/
|   |   |-- pages/
|   |   |-- context/
|   |   |-- App.js
|-- server/ (Node/Express)
|   |-- controllers/
|   |-- models/
|   |-- routes/
|   |-- middleware/
|   |-- server.js
```

Coding Standards

S.No	Standard	Description
1	Naming Convention	camelCase for variables/functions, PascalCase for components
2	File Organization	Separate folders for routes, controllers, models, components
3	Comments	JSDoc-style comments for functions and modules
4	Reusability	Shared components, utility functions, middleware reuse
5	Version Control	Git branching strategy with meaningful commit messages

Code Quality Checklist

S.No	Checklist Item	Status
1	Consistent naming convention	Yes
2	Modular code structure	Yes
3	Error handling implemented	Yes
4	Environment variables used	Yes
5	No hardcoded values	Yes
6	Code documented with comments	Yes
