

Proposed Solution

Date	Team ID	Project Name	Maximum Marks
		SB Stocks	2 Marks

Solution Overview:

SB Stocks is a user-friendly paper trading web application that allows users to practice stock trading using virtual funds with real-time US stock market data. The platform bridges the gap between theoretical knowledge and practical trading experience by providing a risk-free environment to simulate buying and selling stocks.

Key Features:

- 1. User Registration & Authentication - Secure signup/login with encrypted passwords
- 2. Real-Time Stock Market Data

User Flow:

- 1. User registers/logs in -> Dashboard
- 2. User searches for stocks to trade

Value Proposition:

- Zero financial risk for learning
- Real market conditions
